

**DOES YOUR COMPANY HAVE A SYSTEM INCASE OF A FIRE?**

**IF NOT CHECK THE FOLLOWING.**

- Have all fire fighting equipment serviced annually
- Have employees trained in fire fighting, appoint Evacuation Marshalls and First aid
- Ensure that fire loading is kept to a minimum
- Implement a good House Keeping and Waste Management Program
- Inform your local Fire Dept. when changes are made to the building
- Ensure all escape routes are kept clear
- Ensure that all premises have a Emergency Evacuation Plan and Early warning detection system linked to an alarm
- Conduct at least two fire drills per year
- Ensure that your flammable liquid store complies to General Safety Regulation 4
- Complete Monthly inspections on electrical equipment

**For a Legal Compliance Audit and Fire Survey in line with the OHASA act 85/1993, Community Safety By Law and The National Building Regulations (SANS 0400), contact:**
